

PROFILE

Dual-degree Economics & Cognitive Science graduate with experience in financial modeling, FP&A, and econometric research. Incoming UCLA MASDS student seeking concurrent roles in finance, business, and analytics.

EDUCATION

University of California, Los Angeles (UCLA)

Master of Applied Statistics and Data Science (MASDS)

Focus Areas: Financial Econometrics, Time-Series Forecasting, Quantitative Methods

Expected Start: Sep 2026

Admitted

University of California, Merced

B.S. in Economics & B.S. in Cognitive Science

Coursework: Corporate Finance, Econometrics, Micro/Macroeconomics, Financial Accounting, Investments

Recognition: OSI Leadership Award (2025); Tan Family Foundation Scholarship (2025); Chancellor’s List (4 Years)

Activities & Leadership: Alpha Kappa Psi (Director of Finance), Campus Activities Board (Treasurer)

Aug 2022 — May 2026

GPA: 3.73/4.00

PROFESSIONAL EXPERIENCE

Lead Business Center Intern

UC Merced Office of Student Involvement

• Financial Controls & Compliance: Managed internal financial controls for a \$350K annual departmental budget, overseeing expenditure trends and optimizing capital allocation across operational priorities

• Variance Analysis & Reporting: Conducted monthly variance analysis in Excel and Tableau to surface budget discrepancies, delivering actionable financial reports and recommendations to senior administration

• Process Automation: Engineered a Python-based auditing tool to index and reconcile financial transaction records, cutting manual reconciliation turnaround time by 80%

Jan 2024 — May 2026

Merced, CA

Real Estate Private Equity Intern

Project Destined — Real Estate PE Training Program

• Financial Modeling & Analytics: Built dynamic DCF, IRR, and equity-waterfall models in Excel for three multifamily acquisitions, evaluating risk-adjusted returns for a flagship \$17M asset (\$22.6M capitalization)

• Quantitative Underwriting: Sized permanent debt structures using key metrics (1.25x DSCR, 12% Debt Yield, 65% LTV) and validated assumptions using rental comp and cap rate datasets

• Investment Communication: Synthesized financial model outputs into investment committee memos, pitching capital structure optimization and exit strategies to institutional PE professionals

Jan 2026 — Mar 2026

Remote

Industrial Organization Research Fellow

UCM Economics & Business Management Department

• Data Engineering: Consolidated 82,000+ historical employee records across three industrial firms into a unified panel dataset, enabling robust time-series analysis of labor market trends and occupational dynamics

• Data Standardization: Classified 4,700+ job titles into 82 occupation categories using a hybrid Python pipeline combining string-matching algorithms and manual recoding, materially improving downstream modeling quality

• Econometric Modeling: Applied Cox Proportional Hazards models and advanced regression techniques in Stata to quantify socio-economic determinants of organizational retention and compensation outcomes

May 2024 — Aug 2025

Merced, CA

LEADERSHIP EXPERIENCE

Founding President (UC Merced Chapter)

Society of Asian Scientists & Engineers (SASE)

• Chapter Development: Established UC Merced’s inaugural SASE chapter, building a 10-officer executive board and growing membership to 70+, creating an organized professional community for Asian students in STEM

• Budget & Fundraising: Secured \$12,000+ through sponsorship outreach and budget proposals, funding career workshops, member travel to professional conferences, and internal chapter operations

• Program Execution: Launched the inaugural SASE Research Symposium and SASEhacks @ UCM, partnering with 8 industry specialists to deliver technical panels, project mentorship, and networking programming

May 2024 — May 2025

Merced, CA

TECHNICAL SKILLS

Financial Modeling & Valuation: DCF, Levered/Unlevered IRR, Equity Waterfalls, Capital Structure Analysis, Debt Sizing & DSCR, Investment Committee Memos

Data Systems & Automation: SQL (PostgreSQL, MySQL), Python (pandas, NumPy, matplotlib), R, Advanced Excel (VBA, Power Query, Pivot Tables), Tableau, Power BI
