EDUCATION

University of California, Los Angeles (UCLA) Expected Start: Fall 2026
Master of Applied Statistics and Data Science (MASDS) Admitted

University of California, Merced Aug 2022 — May 2026
B.S. in Economics (Economic Analysis & Policy Emphasis) & B.S. in Cognitive Science GPA: 3.82/4.00
Recognition: OSI Leadership Award (2025); Tan Family Foundation Scholarship (2025); Chancellor's List (4 Years)

TECHNICAL SKILLS

Programming Languages: Python, R, SQL, Stata, C/C++, Lua, HTML/CSS, JavaScript
Data Analysis & Visualization: pandas, NumPy, matplotlib, Microsoft Excel, Tableau, Power BI
Databases & Tools: PostgreSQL, MySQL, Git/GitHub, Unix/Linux, Jupyter Notebook, RStudio

PROFESSIONAL EXPERIENCE

Business Center Lead Intern Jan 2024 — May 2026
UC Merced Office of Student Involvement Merced, CA

- Review and facilitate 1,000+ procurement, travel, and expenditure requests for 300+ student organizations using SAP Concur and Modern Campus, maintaining integrity in financial processing
- Approve \$350,000 in annual student organization expenditures using Excel and Tableau to identify budget trends and generate actionable reports for Office of Student Involvement professional staff
- Developed a Python-based file management system that automated the categorization of expenditure files, streamlining archival workflows and reducing manual processing time by 80%

Real Estate Private Equity Intern Jan 2026 — Mar 2026
Project Destined Remote

- Built and stress-tested full financial models (DCF, IRR, equity waterfall) for 3 multifamily acquisitions, evaluating risk-adjusted returns across market scenarios
- Synthesized market comparables, rent trends, and deal-level data to produce underwriting assumptions and investment recommendations
- Authored investment memos and delivered pitches to industry professionals in a competitive PE deal competition, placing emphasis on capital structure and exit strategy

Undergraduate Research Assistant Aug 2025 — May 2026
Marghetis Lab Merced, CA

- Initiated a new research project investigating cognition and team synergy through real-word rally racing communication footage, focusing on driver-co-driver communication dynamics
- Developing methods for annotating multimodal data (language, gesture, timing) using R and qualitative coding, laying groundwork for scalable analysis of rally interactions
- Expanding role toward designing experimental protocols, managing data pipelines, and collaborating with lab members to translate findings into broader theories of collective cognition

SURI Undergraduate Research Fellow May 2024 — Aug 2025
UROC / UCM Economics & Business Management Department Merced, CA

- Structured a unified panel dataset from 82,000+ historical employee records across three industrial firms, enabling robust time-series analysis of labor market trends and occupational dynamics
- Standardized 4,700+ job titles into 82 occupation categories using a hybrid approach of string-matching and manual recoding in Stata, improving data quality for statistical modeling
- Applied Cox Proportional Hazards models and Duncan Dissimilarity Index to analyze the relationship between ethnicity, wage, and job tenure, developing relevant econometric and data interpretation skills

LEADERSHIP EXPERIENCE

Founding President (UC Merced Chapter) May 2024 — May 2025
Society of Asian Scientists & Engineers (SASE) Merced, CA

- Built a 10-officer executive board and recruited 70+ members, laying the foundation for UC Merced's SASE chapter and creating a productive community for Asian students in science and engineering
- Raised \$12,000+ through sponsorship outreach, fundraising, and budget proposals, funding career workshops, technical projects, internal chapter operations, and member travel to professional conferences
- Launched the inaugural SASE Research Symposium and SASEhacks @ UCM, partnering with 8+ industry specialists to deliver panels, project mentorship, and professional networking opportunities
